

Lab Exercise One

1. Create a web page called 'labexone.html' which displays your name, with each letter being of a different heading size. Save the file in your course_html directory. Make sure you have created html, head and body tags and your html can be successfully validated at:
https://validator.w3.org/#validate_by_upload+with_options
2. Open a Firefox web browser and make sure you can successfully display your webpage via webapp.cms.waikato.ac.nz/~username/labexone.html
3. Add links to your 3 most frequently used web sites.
4. Replace one of the text links with an image such that when you click on the image, you are taken to the website. (Hint: you will need to replace the text between <a> and with an image tag)
5. Add a bullet list of 5 items

Assessment

You need to get each lab exercise signed off in one of the supervised labs for it to be marked as complete. Deadline for exercise one is **Thursday 17th July**.

1. Show your web page to one of the lab demonstrators, make sure it meets all of the criteria described in 1-5 above.
2. Lab demonstrator will ask you to make changes to your page which will require use of different HTML elements.
